About **GLOCAL**

At the Glocal University, we strongly believe in harnessing the power of knowledge by combining learning with extensive application-based study and professional ethics, thus maximizing one's overall potential and nurturing a winning mentality in each of our students. We believe in a radical approach towards education with in-depth study and international teaching techniques that encourage a practical application of knowledge along with a code of ethics, hence developing one's inner self and providing the perfect edge.

- **Eight major schools and 55+ UG / Postgraduate/ Professional Courses to offer.**
- **Highly Esteemed and Qualified Faculty with years of rich industry experience.**
- **Sprawling 350 Acre campus and World-Class Infrastructure**
- **State-of-the-art facilities, Fully Furnished Hostels and Recreation Centers.**
- **Recognized by UGC under Section 22 of UGC Act 1956 and established by the Glocal University Act, 2011 (UP Act no. 2 of 2012) (as passed by the Uttar Pradesh legislature)**

Building Skills and spreading knowledge

Vision & Mission

VISION

Global canvass, local color's - that is what we, at Glocal, simply believe in. It is the prism that refracts all our endeavors- whether it is our architecture, curriculum design, pedagogy, hostel life, laboratories, café or the library. In short, we simply celebrate the liminal space where the "global" meets the local'. We are traditional, yet we are not. We are modern, yet we are not really so. We understand the hybrid nature of the global workplace and that is why no binaries constrain us. To flourish in the world today, one cannot afford substantive and rigid visions of the good life. One has to appreciate the negotiated nature of the contemporary.

MISSION

At the Glocal University, we are committed to producing top-notch professionals who have a zeal for perpetual learning and are capable of performing well in diverse professional and cultural settings. While we provide the students with all the tools required to successfully take on the world, we also endeavor to instill in them a healthy cultural rootedness that combines the best of traditional values with modern and progressive sensibilities.

About BVOC

BVoc is the brain child of The Global University as an answer to the exhortation of UGC in 2016 to spread the concept of learning while working as against the traditional way of learn and try for job. It supports the goal of the central government to scale up the quality of human resources as the integral part of the new education policy. BVoc courses are not child's play which rolls out inept graduates from education factories. Here the students are not left at the mercy of fate to run after professional experience and work knowledge. On the very induction the students start to receive job training in the industry vertical in which they choose to graduate.

The course is programmed to contain 60% work experience input and 40% theoretical knowledge put in the discipline, the latter which they receive either at the work place or from the institutions arranged by the university. B. Voc courses focus on professional experience with theoretical knowledge added to it. These courses are beneficial to students in two ways. The persons who already working can acquire more theoretical knowledge in their field of working and improve their career with a graduate degree and those pursuing education are trained and educated as professional to find better opportunities as graduates experienced in the profession.

MAIN OBJECTIVES OF BVOC

Cost- Effectiveness: Providing quality education without extra expenses for hostel fees, payments for college infra structure, food, commuting charges, library fees –low cost for high-value education.

The flexibility of time and convenience: Providing opportunities for students who prefer distance online courses due to the flexibility of learning from home and the convenience of choosing their own time and pace without quitting jobs.

Quality of Education: Quality of Education: Providing low cost- high quality courses with comprehensive and in depth knowledge package dispensed through an easily digestible mode ensuring that they excel any other regular course.

Career Improvement: Providing better opportunities to employed persons who cannot find time or convenience to upgrade their career through acquiring higher qualifications better skills.

Reduction of unemployment: Increasing the job opportunities of socially and financially backward rural and urban youth through spreading quality education by and make them employable.

LEVEL OF AWARDS

NSQf Level **4**

Certificate (6 Months - 30 Credits after 10 +2)

NSQf Level **5**

Diploma (1 Year - 60 Cumulative Credit after 10 +2)

NSQf Level **6**

Advanced Diploma (2 Year - 120 Cumulative Credits)

NSQf Level **7**

B.Voc Degree (3 Year - 180 Cumulative Credits)

NSQf Level **8**

P.G. Diploma (1 Year - 60 Credits after B.Voc)

NSQf Level **9**

M.Voc Degree (1 Year - 120 Credits after B.Voc)

NSQf Level **10**

Research Level (UGC Minimum Standard and Research Procedure for Award of M.Phil / PH.D Degrees)

B.VOC COURSES

- 1** B.VOC IN PARAMEDICAL AND HEALTH ADMINISTRATION
- 2** B.VOC IN PHYSIOTHERAPY
- 3** B.VOC IN PHARMACEUTICAL CHEMISTRY
- 4** B.VOC IN CMS-ED
- 5** B.VOC IN DENTAL HYGIENE
- 6** B.VOC IN OPERATION THEATER
- 7** B.VOC IN MEDICAL LABORATORY TECHNOLOGY
- 8** B.VOC IN CRITICAL CARE TECHNOLOGY
- 9** BACHELOR OF VOCATION IN PATIENT CARE TECHNOLOGY

B.VOC IN FIRE SAFETY **63**

B.VOC IN JOURNALISM AND MASS COMMUNICATION **64**

B.VOC IN INTERIOR DESIGNING **65**

About **SKILL**

Skill courses offered by universities play a pivotal role in preparing students for the dynamic demands of the professional landscape. These courses extend beyond traditional academic curricula, focusing on the development of practical and applicable skills that are highly sought after by employers. Ranging from technical proficiencies in areas like programming or laboratory techniques to soft skills such as effective communication, critical thinking, and teamwork, these skill courses provide students with a well-rounded toolkit for success. Whether honing digital literacy, cultivating leadership abilities, or fostering entrepreneurial mindsets, these programs cater to diverse interests and career aspirations. By engaging in skill courses, students not only acquire hands-on expertise but also gain a competitive edge in the job market, where employers increasingly value a combination of academic knowledge and practical skills. Overall, skill courses in universities contribute significantly to empowering students for the challenges and opportunities they will encounter in their professional journeys.

IMPORTANCE OF SKILL DEVELOPMENT

It is important to empower students with skill-based training as the development of our economy depends upon them. Here's why skill development in school is important:

- The skill development process helps students think beyond grades. It helps them tap into their capabilities, develop real-life skills, and prepare themselves to be successful in the careers of their choice.
- Skill-based learning improves employability and helps the youth earn more. Furthermore, it improves the economy of a country and promotes its financial growth. Skill-based learning helps students develop problem-solving strategies and effective communication techniques.
- Learning skill development promotes the leadership skills of students as it helps them become more altruistic. They learn to use their skills to organize and inspire their teams, which, in turn, creates in them leadership qualities.
- It also helps students develop creativity, critical thinking, and analytical thinking as skill-based learning focuses on the evaluation and application of facts to real-life problems.

WHY SKILL ?

Skill development has gained a lot of importance in today's world. With the need to empower the youth, improve their job prospects, and also the economy of the country, skill development has become an essential aspect of education.

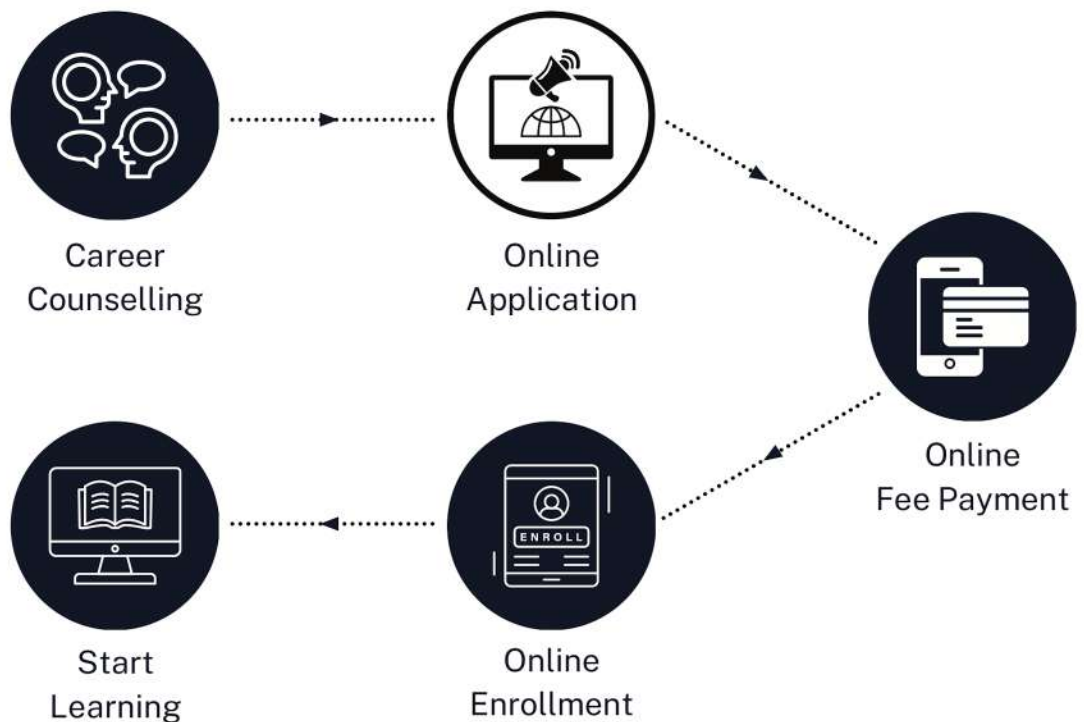

It is getting incorporated into the school curriculum that earlier focused mainly on academics. Now, however, the focus is also on imparting life skills to school students and vocational training to high school students in a bid to improve their chances of a brighter and better future.

Skill development not only helps individual students but also the community as a whole. It helps create a better world, where there is respect for cultural differences and diversity and where creativity and imagination get the importance they deserve, all of which help in creating a flourishing society.

IMPORTANCE OF BVOC & Certification PROGRAM

We live in the age of universal education which upholds the right of education to all. The government – both central and state – aims at the improvement of gross enrolment ratio in higher education through vocational degree courses as the most fruitful method of enhancing the quality of human resources culminating in the reduction of rural and urban unemployment and knowledge and career improvement of the existing professionals.

ADMISSION PROCESS

“The privilege of a university education is a great one; the more widely it is extended the better for any country.”
